The Power of Intuitive Intelligence

“The intuitive mind is a sacred gift and the rational mind is a faithful servant. We have created a society that honors the servant and has forgotten the gift.”

*Albert Einstein*

Heartmath Institute has conducted multiple case studies showing our innate ability to know what is about to unfold before any evidence is provided. M.I.T. references “*Lead by Sensing the Future*” as the new Leadership Model and how to access this intelligence.

The speed at which we are all living in today professionally and personally, clearly illuminates the necessity to learn how to access a higher level of intelligence and become skilled at handling the complexities of current day challenges facing this world. The good news is every person has access to it and every person can make a difference!
