PRACTICAL PROSPERITY PRACTICES COMPREHENSIVE OVERVIEW
Practical Prosperity Practices Comprehensive Overview is a content-rich event that goes significantly beyond the traditional means of creating opportunities. Extraordinary and thought-provoking, Practical Prosperity Practices will fundamentally shift the way you look at the development and growth of organizations, both large and small.

This Comprehensive Overview Presentation will provide tangible and specific ways and means to apply these new and refreshing ideas, in what Peter Senge from MIT states as the Global Information Age, which we are in now. Learn new methods, new tools, new attitudes and new intentions for this new age of business and commerce.

“More and more, people want work that engages the whole person, work that fulfills social needs, work that is meaningful—in short, work that is psychologically rewarding. These cultural shifts are taking place . . . people

want to view their work as a calling, something that answers to a higher need. This is transforming the marketplace, the workplace and the very soul of capitalism.” —Raj Sisodia, Author of Firms of Endearment

PRACTICAL PROSPERITY PRACTICES WORKSHOP – FULL DAY

"BUSINESS PLAN DESIGN PROGRAM"

Practical Prosperity Practices is a business plan design workshop that will transform productivity as we know it today. We offer planning and practices that translate into high levels of effectiveness and results. These practices have saved companies from collapse, turned around businesses with high turnover and minimal growth, and rejuvenated business professionals who were discouraged from volumes of efforts and unsatisfactory results.

The most significant benefits of these six-step processes will result in a deep fulfillment and will shed light on a much broader reason to be in your chosen field.

"Business is a field of possibilities. The market is a stage on which every human being manifests his values. When this manifestation is guided by success beyond success, business becomes a work of art, a work of love and freedom." —Fred Kofman, PhD

THE POWER OF EFFECTIVE GOAL RECEIVING WORKSHOP – FULL DAY

"Opening a lock with a combination takes minimal effort. Understanding the combination for receiving goals takes minimal effort, as well." —Darylle Dennis

The first step is to get clarity on what you desire. The additional eight steps, if applied, will ensure a full "life by design." The results will be abundance in all areas of one's life in a dream-come-true manner! This is not an idle promise. Quantum physicists have now proven in case studies around the world, that our lives have the power to create, expand and resolve anything and everything on which we place our attention. Together with what we believe is possible, we will surely achieve our goals.

"Once you discover your WHY, you are better able to align your beliefs with every choice and action you take, in order to find greater fulfillment in all that you do." —Simon Sinek

EXECUTIVE GROUP COACHING

"TAILOR-DESIGNED FOR EACH GROUP"

Executive Group Coaching is a stimulating group interactive experience where attendees receive an overview on new business-building practices for high-level productivity and results.

Once participants reveal their goals and objectives, issues and concerns, we share strategies that are pouring out of the most prestigious universities regarding business growth in a new era. Solutions for productive and effective outcomes have two aspects: attitudes and methods. This group coaching experience is an acceleration of simultaneously experiencing small shifts, which produce extraordinary results while revealing deeper resources and potentials within each individual.

"When people give the best of themselves in serving a noble purpose, they become the highest selves they can be and create the best world they can conceive." —Fred Kofman, PhD

PRIVATE EXECUTIVE COACHING/CONSULTING

"CONFIDENTIAL SUPPORT – MEASURABLE RESULTS"

Private Executive Coaching is a significant support option offered to executives who have tremendous responsibilities. Executives today are facing substantial challenges with urgencies to resolve issues and objectives. Those who have been supported by Private Executive Coaching have shared that they received clarity on solutions and renewed confidence, which is an invaluable support and outcome to experience.

The challenges, as stated by Peter Senge at MIT, in part, are corporations' utilization of old tools and methodologies in a new business era. Frustrations can easily arise when the tools no longer serve the objectives, especially when the tools worked in previous decades. Responsible executives are juggling these and other challenging and potentially overwhelming issues.

Executive Private Coaching offers confidential support, together with clarification of the issues and concerns, resulting in measurable results—both personal and professional.

"If we want to strengthen our companies, elevate our lives and improve the world, we need to close the Gap between what science knows and what business does." —Daniel Pink, Author of Drive
