

“Our results are a direct reflection of our commitment to our businesses and our lives. Commitment and results can no more be separated from each other than a body can be separated from its shadow.”

VALUE vs FORCE

The Power Series Classes

Personal Power is a continual alignment with our core energies. Those energies are initially activated from our intentions, our focus and our values. The Power Series addresses the specifics of internal alignment and the foundation of our character.

THE POWER OF INTENTION

Intention is a generator of power, which makes things move. When our intentions are purposeful and making a difference, we launch a powerful momentum. Intention brings about amazing results from the goals and objectives we've launched with our intentions.

THE POWER OF THE GAP

Our creative genius and artistry are expressed during the Gap Period, which is the time in between setting the goal and its arrival. When we set a goal and there is no evidence of movement, we tend to doubt. During the Gap Period, find the path of positivity, and enjoy seeing the goal travel on its way! Look through a mode of receiving, a mode of expectation. This is how manifestation works.

THE POWER OF MOMENTUM

Momentum is rarely acknowledged or given credit as the most significant aspect of a continued string of successes. Momentum is also responsible for many surprising outcomes/results. Learn how to launch momentum and keep it in motion! Less effort and plentiful opportunities become available.

THE POWER OF COMMITMENT

Professionals across the spectrum of industries would, without fail, accomplish what they set out to accomplish if they understood and adopted The Power of Commitment. Commitment isn't merely a factor to success; commitment is the reason we succeed! Commitment = Results!

THE POWER OF COMMUNICATION

The solution for healthy communication is alignment with a higher intention. Building together is a higher intention. An intention to be of value launches the highest form of communication.

THE POWER OF FOCUS

The Power of Focus introduces and validates a direct path to our full potential, creativity and genius. Imagine applying our full-out potential in our business-building activities! Our perspectives and our processes shift organically according to each situation, and with remarkable speed and influence. Einstein said, “Genius is the ability to focus, the ability to concentrate.”

THE POWER OF INTEGRITY

Integrity is a builder of confidence and an opener of opportunity. Integrity addresses becoming effective and productive in a moment, which results in quantum leaps in our income streams. This quantum leap is possible when each one of us revisits our relationship with our word. Integrity is one of those long-standing, misunderstood jewels! Self-worth and empowerment are available to all, and they are called INTEGRITY!

THE POWER OF NO THANK YOU

The Power of No Thank You offers an exploration clarifying the significance this subject holds, which affects most professions. Professions with vulnerability and high-stress clients can be most challenging when behavior goes negative. The Power of No Thank You teaches us how to evaluate each situation causing difficulty. Learn how to restore a healthy relationship, and as a last resort, how to disconnect in a way that holds no drama, blame or stress. You will be amazed at what happens next!

THE POWER OF BELIEF SYSTEMS

Our beliefs are agreements made with ourselves holding expectations that our beliefs are true. Ultimately, we believe our decisions support a successful life. We will explore areas of our beliefs and offer exercises to renegotiate our agreements with ourselves. New belief systems based in Quantum Physics, the science of possibilities, will shine a new and bright light on how to apply this science and what is possible to create.

THE POWER OF SELF-DETERMINATION

Self-Determination is a choice we make for our own reasons, which is why self-determination is so powerful. When we choose to win in our lives, we launch tremendous energy that opens so much opportunity right before our very eyes! Learn how to activate a self-determined objective to break through any situation.

THE POWER OF COURAGE

The Power of Courage in our educational series teaches what courage is and how to produce a surge of power of such magnitude, your win will be imminent. Courage is a choice to act. Courage has the power to activate our deeper potentials, which behavioral scientists have studied for decades. We are born with a dominant driving force for self-actualization: self fully realized. Courage exists side by side with our potentials and is a birthright, ready and available the moment we call upon it!

THE POWER OF VALUE

Mark Twain said, “The two most important days of your life are the day you were born and the day you find out why.” Abraham Maslow’s behavioral science studies also revealed the inter-relationship between the goal and purpose of our life and the longevity of our life. Contributing and making a difference is inherent in our identity and fundamental to our fulfillment and success. The significance of being of value and making a difference has a direct impact on the quality and length of our lives. “A rising tide lifts all boats. Be a rising tide.”

THE POWER OF GRATITUDE

The Power of Gratitude offers a deeper and broader perspective on what gratitude truly is. When we become conscious of the energy flows between people and the quality of gratitude as an energy, we begin to experience quantum leaps in the benefits of goodness flooding our lives, in all aspects: Personal, Financial, Professional, Physical and Spiritual. Gratitude directly affects areas of our lives that matter to us: success, prosperity, opportunity, health, relationships and fulfillment. Gratitude clearly communicates the value we place on our relationships, both professional and personal.
