

VALUE vs. FORCE™

a new way to *be* in business

The Power of Belief Systems

Definition of Belief:

“Conviction that certain things are true – trust or confidence – an opinion or expectation. Beliefs are agreements.”

The Power Series™ shares with The Power of Belief Systems Program the significance of the condition of our attitudes which will inevitably have a defining influence on our productive outcomes. The Power of Belief Systems speaks to the “truths” we build on and experience according to our beliefs. The objective in The Power of Belief Systems Program is to evaluate beliefs we hold as truths and establish new beliefs if the older ones in fact no longer serve our modern-day business and life.

There are millions of business professionals making herculean efforts on a daily basis to produce respect-worthy results and build powerful income streams. When the results are unsatisfactory, frustrations emerge with questions of, “what else needs to be done to accomplish the results I am working so hard to make happen?”

We are very excited to bring you The Power of Belief Systems which will answer this question and any other questions pertaining to what is obstructing the productive outcome leading to success and abundance. This event will once and for all open a direct path to winning and manifesting what we want in our businesses and lives.

Our beliefs are agreements we have made with ourselves holding an expectation they are true for reasons we believe will ultimately support a successful life. We will explore areas of our beliefs and offer exercises to renegotiate our agreements with ourselves. New belief systems based in Quantum Physics, scientific studies on possibilities, will serve our life in new and remarkable ways.
