

VALUE vs. FORCE™

a new way to *be* in business

The Power of Gratitude

Definition of Gratitude:

“The quality of being thankful; readiness to show appreciation for and to return kindnesses.”

Every class offered by the Value vs. Force Educational Series™ sheds light on the significance of internal dynamics before addressing external methodologies or actions to offer. The reason for this is the condition of our attitudes will inevitably determine if our outcomes are productive; or not.

One of the most famous scientists on the subject of attitudes and intentions and their impact was Dr. Masaru Emoto from Japan. Dr. Emoto’s studies showed the expansion and/or the implosion impact that many of our attitudes have on us and others.

After innumerable studies, Dr. Emoto showed Gratitude to be the most impactful attitude we can offer in any given situation. Our focus is professional effectiveness and productivity. Gratitude attitudes will make a significant difference in more immediate results.

The Power of Gratitude will offer a deeper and broader perspective on what Gratitude truly is, what Gratitude accesses within ourselves and what outcomes can Gratitude effect in areas of our lives that matter to us; success, prosperity, opportunity, health, relationships and fulfillment.

“The universe is structured to naturally respond to the needs and desires of a grateful individual. It is only a person with gratitude who can hold a vision and lead it to completion since his brain and nervous system are then wired differently.”

—Sri Bhagavan
